

ANGULARJS

Introduction

Objectives

In this exercise you will learn how to create an Angular application.

Reference material

This exercise is based on material from the **Introduction** chapter.

Overview

- In this lab you'll create your first Angular app and investigate the role of the ng-app directive.

Estimated duration

The estimated duration for this lab is 5 minutes.

Completed solution

There is a completed solution for this lab.

Step by step instructions

Getting started

1. Create a new empty web site folder, and open it using Visual Studio Code.
2. Create a new HTML page and modify the text to:

```
<!DOCTYPE html>
<html>
<head>
  <title>Demo2</title>
  <script
src="https://ajax.googleapis.com/ajax/libs/angularjs/1.6.4/angular.min.js">
  </script>
</head>
<body ng-app>
  result is = {{ 5+6 }}
</body>
</html>
```

3. Press **Alt-B** to run your webpage.
